

Project Design Phase Problem-Solution Fit

Date	02 NOVEMBER 2025
Team ID	D62F116B4D1897894BB441A9447B6D32
Project Name	To Supply Leftover Food to Poor
Maximum Marks	4 Marks

Conclusion

The project “**To Supply Leftover Food to Poor**” successfully demonstrates how **Salesforce technology** can be used to address a real-world social problem — **food wastage and hunger**. By creating a centralized and automated system, this project connects **donors, volunteers, and NGOs** to ensure that surplus food reaches those in need quickly and efficiently.

The use of **custom objects, flows, triggers, reports, and dashboards** has made the process of food donation and distribution transparent and easy to manage. Automation has reduced manual effort, while dashboards provide real-time insights into donation activities and impact.

This project not only enhances **organizational efficiency** but also promotes **social responsibility** by using modern CRM tools for humanitarian purposes. Through this initiative, Salesforce has been effectively utilized to make a **positive difference in society**, proving that technology can be a powerful tool for social good.
